Dear Adoption Advocate:

This is the most recent edition of the NC Kids Family Listing. These families are interested in adopting children with special needs and have been approved for placement. Please review to determine if any of these families might be a suitable placement resource for children in the custody of your agency. If you think one of these families might be a potential match for one of your children, please call NC Kids at the above number (or download additional copies from <http://www.state.nc.us/dss/proinfo/cw.htm>). NC Kids has copies of each family's preplacement assessment and would be happy to send you a copy. We are available from 7:00 a.m. until 7:00 p.m. Monday through Saturday.

It is our hope that when new families are approved to adopt, you will complete the Family Registration Form (DSS-1821) and send it along with a photograph and a copy of the family's preplacement assessment to the address above so they can be added to the Family Listing. We believe that this is a valuable resource in assisting the children of North Carolina in finding a permanent family.

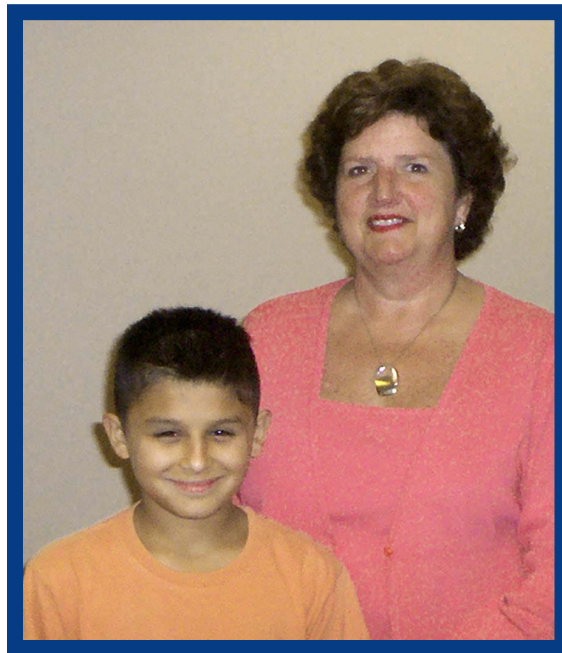

Feel free to circulate this list to all adoption social workers. The Family Listing is updated monthly and can be found at <http://www.dhhs.state.nc.us/dss/proinfo/cw.htm>.

If you have questions or information to share, please feel free to contact us at 877-625-4371.

Sincerely,

## Meet the Ivester Family...

IVESTER  
034-20142

Single  
Caucasian

Sandy Ivester has fostered children for more than 15 years, providing care for special needs children ranging from ADHD to RAD. She has served as president of the Foster Parent's Association and is a Guardian ad Litem and has proven herself to be an advocate for children many times over. Sandy has two grown children and one adopted son and would like to adopt at least one more child. She is open to a sibling group of three and prefers Latin ethnicity, but will consider Caucasian or biracial mix of the two. Sandy is prepared to love, nurture, and parent children with mild physical or mental challenges and up to moderate learning or emotional challenges. She does say that any child placed in her home will need to be able to manage a high energy lifestyle, as they are constantly in motion. Sandy works hard to make sure her children have all opportunities to explore their interests in order to discover where their strengths lie. She is a licensed foster parent and open to legal risk adoptions.

**BARTLETT**  
057-23340

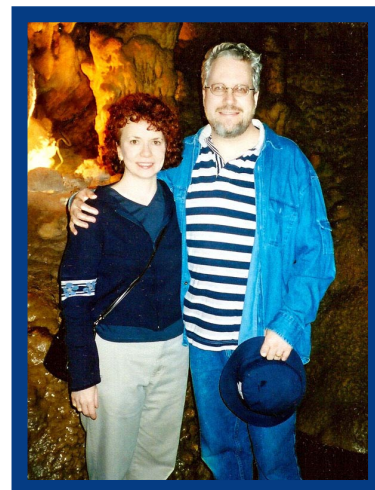

**Couple**  
**Caucasian**

Roy and Judy Bartlett hope to adopt a boy and/or girl, or sibling group of two between birth and eight years of age. They have no ethnic preference and are open to mild physical, emotional, learning, or mental challenges. They will consider children who do not have chronic, debilitating, or terminal illness and who do not require heavy lifting. The Bartletts are frequently a respite family for an Easter Seals child and they have truly enjoyed the experience. There is also an adult foster son living in their home who Judy has raised since he was a young boy, but he will be moving out in the near future. The Bartlett's are an animal-loving family with approximately nine dogs (three house dogs) and numerous cats, only one of which is occasionally allowed in the house.

**BREY/WARD**  
026-25443

**Couple**  
**Caucasian**

Steven Brey and Lynda Ward are a highly intelligent, energetic couple. They are both Methodist ministers who are open to insights from other religions. Steven is the pastor at a large nearby church that they attend. Steven and Lynda feel that they have been blessed and would like to share their blessings with a child. They offer security, loyalty, a loving home, and an environment where they can explore who they are and consider opportunities while knowing they have someone to support them if they make mistakes. They share their home with five indoor de-clawed cats and a hamster, and are ready to include a child.

**BROOKS**  
090-26393

**Couple**  
**African American**

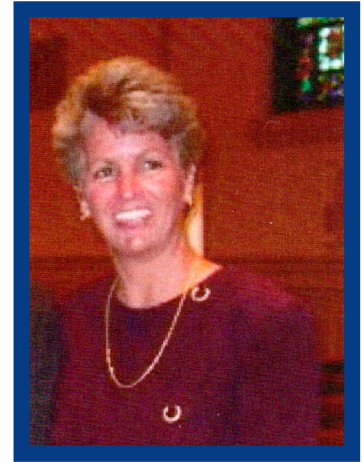

Aaron and Sara Brooks have plenty of experience with children, through both adoption and birth. Their 14-year-old adopted son's special needs have been a challenge, but they are resourceful in getting what is best for the boy. The Brooks' are open to mild physical and/or moderate emotional and learning challenges. They are open to developmental delays, but do expect the child to be able to live independently as an adult. Their birth son and extended family are aware and supportive of their wish to adopt as many as four children of any sex or ethnicity, with the oldest being a girl up to the age of 16. They hope to share their love of being outdoors, going to flea markets, having barbecues, swimming, and going to the duck pond with the new members of their family.

**BROWN**  
**032-26850**

**Single**  
**Caucasian**

Dr. Kathleen Brown is a professor of education who grew up in a very large family and has an even larger extended family now. She hopes to adopt one or two boys of any ethnicity between birth and six years of age and is open to mild physical, emotional, or learning challenges. She enjoys watching and playing sports, outdoor activities, and trips to the beach. Her golden retriever and old cat also hope to add some younger ones to the family.

**BULL**  
**020-26975**

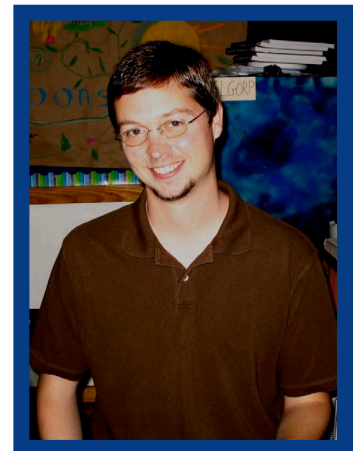

**Couple**  
**Caucasian**

Scot and Marlene Bull are both caring and giving people with the desire to share their home and their "very spoiled Dachshund" with a child. They hope to adopt a boy or girl of any ethnicity between infancy and twelve years of age. They would consider a sibling group of two children within that age range and feel confident that they can parent children with up to moderate physical, emotional, or learning challenges and mild mental retardation. They work alternate schedules so there would likely always be someone home to care for the child.

**BURTON**  
**032-25074**

**Single**  
**Caucasian**

Bill Burton would like to adopt one to three Caucasian boys up to the age of eleven. He prefers healthy children or correctable health conditions, and will consider up to moderate emotional or learning challenges. Bill loves being around children and has a wealth of experience through his education and teaching that will greatly aid his parenting. He feels he is in a good place in his life, secure in his profession and comfortable with his support systems and that it is a good time to pursue his dream of being a parent.

**BUTNER**  
041-25230

**Couple**  
**Caucasian**

The Butner family is blessed with three daughters and now, with one away at college, would like to adopt another one or two children. Vickie and Joey hope to adopt a Caucasian or Caucasian mix boy and/or girl, or sibling group of two, between birth and nine years of age. They are open to a variety of ethnic backgrounds including Caucasian, Hispanic, Native American, Hawaiian, or any combination of those races. The Calhoons believe they can successfully love and parent a child with mild to moderate physical or emotional challenges and up to moderate learning challenges. Renee' is legally blind and has a working dog who is also the friendly family dog when his harness is removed. She also practices Sign Language. **CASTRO**  
076-18916

**Single**  
**Caucasian**

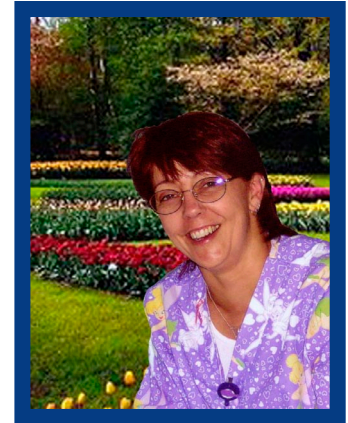

Angel Castro always wanted to move to the United States, so five years ago he left his home and family in Venezuela and moved to North Carolina. He is a school teacher and prepared to foster-to-adopt and love a Caucasian or Hispanic boy or girl up to the age of ten. Angel is open to children with mild to moderate special needs, but as a single parent, he does not feel he could adequately parent a child with severe special needs. He enjoys taking walks, going to the park, and watching movies. His faith is very important to Angel and he will encourage his adoptive child to attend church. Angel's family in Venezuela is very supportive of him adopting a child.

**COBB**  
**050-24422**

**Single**  
**Caucasian**

Jill Cobb would like to adopt a Caucasian boy or girl, or possible sibling group of two, between the ages of six and thirteen. Being a paramedic, Jill has some experience and the understanding of trauma, neglect, domestic violence, and substance abuse and the impact they can have on a child. She is currently enrolled in nursing school and combined with being a single parent, does not believe she can adequately parent a child with serious medical issues. Jill feels she can handle a multitude of minor issues such as allergies, asthma, hyperactivity, or minor hearing or visual impairments. She wants more than anything to take things slowly and allow the adoption experience to be a positive one, both for herself and her adoptive child.

**CRABTREE**  
**016-19182**

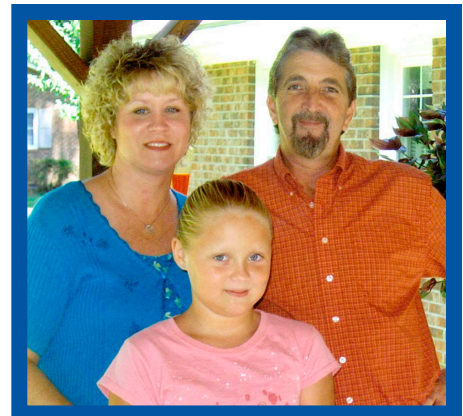

**Couple**  
**Caucasian**

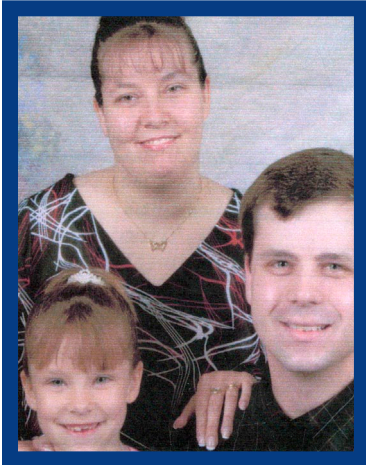

Dean and Cathy are licensed foster parents who would like to foster-to-adopt from one to four siblings between birth and ten years of age. They are open to a variety of mixed ethnicities and genders. They feel capable of successfully parenting children with mild physical, learning, or mental retardation challenges and possibly moderate emotional challenges. The Crabtree's have two grown birth daughters in college, so they have parenting experience. Young children without severe behavioral concerns are most likely to find safety, consistency, and stability within the Crabtree family's quiet, home-oriented and strict lifestyle. Cathy is a piano teacher who works at home and Dean has recently loosened his work schedule to allow for more time with the children. This is a family that is a "package deal" for all of their foster children and will be so for their adoptive kids, which includes their extended family (Cathy's parents are right next door!) and friends.

Jeremy and Heather both have a deep faith in God and both agree that it has helped them through some trying times. They are a warm, friendly, and loving couple who would like to adopt or foster-to-adopt a Caucasian child between birth and age five, or a sibling group of two children. They are willing to consider mild physical or emotional challenges and up to moderate learning challenges. Being one of fourteen siblings, Jeremy knows how to keep his cool and carries that into his career of being a police officer. Working with kindergarten children in school makes Heather very happy and she thrills at the transformation of what they have learned as they move up to first grade. Jeremy and Heather are two very special people, as befit the titles, "Officer of the Year" and "Teacher Assistant of the Year". That's a very special couple.
